

Features, Advantages & Benefits of Nature's Wonder® Plant & Turf Booster™

FEATURES

ADVANTAGES

BENEFITS

Increases Availability of
Soil Nutrients

Improves Fertilizer
Efficiency

Improved Uptake of
Nutrients

Increases Soil's Ability to
Retain Moisture

Decreases Irrigation
Needs

Savings on Labor and
Water Expenses

Compatible

Tank Mixable with a
Variety of Additives

Reduced Costs Attributed
to Extra Applications

Improves Soil Composition

Increases Soil Porosity with
Increased Gas Exchange

Cost Savings with
Efficiency of Water
Movement

Improves Plant Metabolic
Performance

Better Plant Photosynthesis,
Respiration and Nutrient
Translocation

Healthier Plants
Requiring Less
Maintenance

Low Cost and Usage
Rates

Positive Return on
Investment

Budget Savings –
Redistribution

Works with Existing
Equipment

Readily Suspended in
Water

Reduced Costs
Attributed to Equipment
Modifications

Approved for
Organic Use

Environmental
Compliance

Improves Your Green
Thumb!

Meets NOP standards for organic crop production
